WE'RE ON YOUR SIDE

Our customers are more than just our customers - they're our partners, colleagues and often our friends. We forge lasting relationships and we're on their side every step of the way, taking a professional and adaptable approach to ensure that the needs of our clients are fully satisfied.

Our staff embrace these values and appreciate the importance of a great rapport with their clients, this outlook is shared by all employees, from drivers and the warehouse team to operations planners and senior management. Dedicated account managers and customer service representatives maintain day-to-day contact, providing a friendly, helpful and reliable service.

As a family-run business we understand that the flexible and hands on approach is one of the main reasons for our success, all of our customers have a direct line to our directors who pride themselves in going the extra mile to provide the highest levels of service.

Being a family-run business means we really care about delivering the highest standards and take real pride in the extra level of service we're best known for.

We owe much of our success to our ever-growing team of dedicated, highly skilled professionals.

Partnerlink – working together for greater efficiency

As one of the UK's leading logistics providers, we take our environmental responsibilities seriously. Created as a partnership of key, regional transport companies, Partnerlink enables us to maximise the fleet capacities of all members whilst minimising the environmental impact.

Freight is moved efficiently and directly to the area of its ultimate destination, eliminating multiple handling and wasted miles that occur when operating in a traditional hub and spoke style. This allows for shorter lead time and later cut-offs, with the security of a system utilising a trusted closed network of privately owned operators.

Pooling knowledge, resources, technologies and equipment helps the partners and their clients to address their green responsibilities, with the additional benefit of cost reduction through efficiency savings.

The development of Partnerlink Europe has enabled the concept to be expanded onto the continent, ensuring that our clients continue to benefit from this innovative approach to road transport.

PALLETFORCE
www.palletforce.com

We're proud to be part of the Palletforce network

Viamaster are an integral partner in the award winning Palletforce network. Regarded by many industry experts as the UK's leading overnight pallet network provider it boasts a £30 million hub in Burton-on-Trent, Staffordshire opened in 2009.

This state-of-the-art facility includes Super Forklifts which automatically scan and weigh goods in order to speed up operations, as well as a ground-breaking IT system which can handle the end-to end pallet lifecycle. From here a national distribution system encompassing over 100 shareholder depots is efficiently run.

Whether it's a single pallet or a full vehicle, Palletforce gives you the combined strength of a vast national network of over 2,000 vehicles and 3 million ft2 of warehousing, together with the flexible and personal service of a local logistics company.

Plus, as Palletforce is owned by its members, full operational support is guaranteed at all times. There's also the added bonus that with the UK's leading transport companies working together, you're assured the highest level of service at all times.

EUROPE BY ROAD

We provide scheduled, driver accompanied services to and from continental Europe. Building upon the foundation of our highly respected Italian operation, our coverage has evolved throughout Western Europe – utilising both our own international fleet and our network of trusted partners.

- » Groupage and full loads
- » Express vans and dedicated trucks
- » Scheduled daily departures
- » Remote locations and out-of-hours
- » Tail-lift deliveries
- » Exhibition transport and special projects
- » Multimodal

AIR & SEA

Using our extensive experience in the global freight market, we can provide a range of services for both imports and exports by air & sea – along with help to ensure that all of your documentation is in place.

We also have excellent working relationships with selected partners around the world for complete peace of mind that your freight is always in safe, reliable hands. Plus, by regularly monitoring and reviewing our approved list of suppliers we can ensure that you always receive the best service at the best price.

SPECIAL SERVICES

Not everything can be delivered on a pallet. Certain items require expert handling and specialised transport to ensure they arrive on time and in perfect condition. At Viamaster, we take great care to ensure that whatever your consignment, it's handled with due care and consideration at every stage of transportation by our highly experienced staff.

For complete peace of mind, we offer a comprehensive choice of specialised services

- » Temperature controlled
- » Hand carry courier
- » Abnormal loads
- » Bulk powder and liquids
- » Dangerous goods
- » Export packing
- » Export documentation & legalisation
- » Contract management
- » Home deliveries

Our international operation gives you all the reliability and high level of service you enjoy throughout the UK, with the reach of a global logistics provider.

Our modern facilities offer a range of industry essential courses, including logistics, LGV, FLT, health & safety compliance, driver CPC and car & trailer driver training, with courses led by our own highly qualified professionals - each with years of relevant, hands-on experience.

Training is carried out at our new Skills Centre at Europort Castleford, which features purpose-built classrooms as well as forklift and LGV training areas. As a JAUPIT accredited Driver CPC and RTITB forklift centre, this modern facility leads the way in sector training.

All of our courses are competitively priced with discounts available for group booking, please speak to our experts to discuss our cost effective packages.

LEADING THE WAY IN INDUSTRY TRAINING

- » DSA – B+E car & trailer licence
- » DSA – large goods vehicle C1, C & C+E licences
- » Online theory, hazard perception & CPC test training
- » Eco safe driver development
- » Driver CPC for LGV & PCV licences
- » Yard shunter & banksman courses
- » RTITB forklift trucks – novice, refresher & conversion courses
- » Manual handling
- » Warehouse safety skills
- » Hazardous spill training
- » Operator compliance
- » First aid at work
- » Health & safety compliance consultancy & training

All delivered by highly qualified & experienced trainers, accredited by DSA, RoSPA, City & Guilds, SAFED, RTITB and NEBOSH – plus we're also proud to be a part of the RTITB Master Driver CPC Consortium.

HELPING PEOPLE BACK INTO EMPLOYMENT

Working in partnership with Barnsley College and Jobcentre Plus, Viamaster Training offer a range of funded Skills Support for the Unemployed (SSU) and Skills Support for Redundancy (SSR) courses.

Gain industry qualifications from the industry experts

Our modern warehousing facilities have the capacity to cater for all of your handling and storage needs, no matter what your business sector, your cargo or its size. Storage options include variable, high-bay racking to accommodate a number of different pallet heights and footprints, block stacking and bespoke solutions for non-palletised goods.

Operating round-the-clock, we can provide safe, secure handling and storage on both a short and long term basis. Our flexible approach means that we can perform operations specific to seasonal demand, with additional services such as order picking, packing and labelling also available.

Thanks to our own in-house warehouse management system, we can monitor stock rotation, provide sales analysis and prepare detailed reporting to your specific requirements. Plus, our team can perform all types of re-work ranging from quality checks and inspections to repackaging and non-technical modifications.

Viamaster Warehousing is fully integrated with our other services, this enables us to provide you with a streamlined, cost effective solution for your complete logistical requirements.

Choose an altogether smarter
warehousing solution

QUALITY MATTERS

We have strict quality management systems in place, in line with the ISO9001 – 2008 standard for continual improvement. In order to guarantee that we always provide our customers with a level of service above and beyond what is expected, we also work to our own high set of values and work ethics.

To ensure these high standards are always met, we maintain regular dialogue with our employees, providing them with all the relevant and up-to-date training and support they need. All staff are encouraged to reach their full potential within a positive working environment where a high quality service is recognised and rewarded.

HEALTH & SAFETY

The health and safety of our staff, customers, visitors and the public is of utmost importance to us. In order to ensure we are working in a safe environment for all, we take a proactive approach, setting and following stringent policies, which includes an on-going training programme. Adopting this method, we create a workplace that meets both the statutory requirements of the Health & Safety at Work Act 1974 and the relevant regulations applicable to our industry.

REDUCING OUR ENVIRONMENTAL IMPACT

We're dedicated to reducing our environmental impact however and whenever we can. To us, this isn't an option, it's a necessity. By reducing our carbon footprint, we can take positive steps towards improving the way we transport your consignments. One of our main contributions to improving our environmental credentials is our involvement with Partnerlink. By combining loads with select partners, we can reduce freight on the road and the pollution it causes while at the same time providing the highest level of service for our customers.

OUR SUSTAINABLE APPROACH

- » We operate a modern, well maintained fleet
- » New vehicle selection led by environmental impact and efficiency
- » For load and vehicle optimisation we use the latest technology for improved route planning
- » On board telematics allow us to monitor CO2 emissions in real-time
- » We train our staff to drive more efficiently
- » Utilisation of fuel management systems for consumption analysis
- » We encourage and facilitate recycling
- » Support of staff car pooling

Please contact us for more information about the range of services Viamaster have to offer.
